Skills

- **Languages**: JavaScript, Java, Python
- **Frameworks/Libraries**: React.js, Node.js, PHP, HTML5, CSS, Tailwind, Pandas, MatplotLib, Flask
- **Tools/Platforms**: Git, VS Code, MySQL, MongoDB, Excel, Power BI
- **Soft Skills**: Problem-Solving, Teamwork, Time Management, Communication

Projects

Intrusion Detection System using Machine Learning| GitHub May' 25–May'25

- Developed an ML-powered IDS to detect and classify malicious network traffic using the NSL-KDD benchmark dataset
- Executed data preprocessing, feature scaling, and in-depth exploratory data analysis leveraging core Python libraries
- Designed system architecture for extensibility with configurable disk size and adaptable head movement constraints
- Achieved 99.76% classification accuracy by training and fine-tuning a Random Forest model for intrusion detection
- *Tech Stack:* Python, NumPy, Pandas, Matplotlib, Streamlit, Scikit-Learn.

Machine Learning Model | GitHub Oct' 25–Nov'25

- Analyzed Implemented and compared Logistic Regression and Random Forest algorithms for binary and multi-class classification tasks
- Applied feature selection, data preprocessing, and cross-validation strategies to enhance overall model robustness
- Evaluated model effectiveness using accuracy, precision, recall, and F1-score metrics across multiple test scenarios
- *Tech Stack:* Python, NumPy, Pandas, Matplotlib, Streamlit, Scikit-Learn.

Real-Time Chat Application | GitHub Jan' 26–Feb'26

- Engineered a secure real-time chat platform integrating JWT-based user authentication and granular role-based access control
- Designed and deployed one-to-one and group messaging modules with low-latency instant delivery via WebSocket protocol
- Enhanced user experience by incorporating online presence indicators, live typing notifications, and message timestamp tracking
- *Tech Stack:* React, Node.js, Express.js, MongoDB

Training

Training in Machine Learning | CipherSchools - Certificate Jun'25 – Jul'25

- Completed a 6-week structured training covering data science workflow, Python (Pandas, NumPy), data visualization (Matplotlib, Seaborn, Plotly), and Power BI.
- Applied data preprocessing, statistical analysis, and machine learning techniques (Regression, Decision Trees, Random Forest, SVM, K-Means, PCA).
- Built projects including a **chatbot (NLP)** and an **image classifier (CNN)**.

Certificates

- Git and GitHub | Cipher Schools - **Certificate** Jun'23 - Jun'24
- NPTEL | Social Networks - **Certificate** Jul'25 – Nov'25
- *Gen AI NASSCOM Certification* | SFJ Skill Development Program - **Certificate** Feb'25 – Feb'25

Achievements

- Solved 100+ problems on **LeetCode**, **HackerRank**, **GeeksforGeeks**, enhancing problem-solving skills.
- Earned a 4-star rating in Java on HackerRank

Education

- **Lovely Professional University** Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.19*** Aug'2023-Present
- **Doon Valley Public School** Nalagarh, Himachal Pradesh
  Intermediate; ***Percentage:83.6%*** Apr'22-Mar'23
- ***Doon Valley Public School*** Nalagarh, Himachal Pradesh
  Matriculation: ***Percentage:78.6%*** Apr'20-Mar'21
